

Growing a thriving community

The Steadings
Community
Management Trust

Who are we?

The Steadings Community Management Trust (TSCMT) is an independent, not-for-profit organisation. Our mission is to safeguard the community land and assets for community use and to create a sustainable and vibrant community for the benefit of those who live, work or enjoy leisure time within it. All revenues made from the use of community spaces will be directly invested back into you – your space, your community.

What do we do?

We own, manage and maintain green open spaces, community facilities and services, children play areas and other community assets. We aim to help individuals, small charities, voluntary organisations and business start ups to become successful and sustainable by creating spaces and supporting projects that will inspire you and allow you to grow. We encourage a green lifestyle amongst residents and local businesses and work to make positive changes in the community that will support a healthier future.

Why do we do it?

We want to ensure community cohesion by creating a sense of place and belonging, encouraging a supportive and connected community of people. We work with people of all ages, regardless of circumstances to minimise a sense of isolation and build a strong future for everyone. Together with you, we want to create a place for you - where everyone feels welcome. Let us know what you want, what's needed, what already works that we can help build on, and then we will help to make it happen.

Join us in shaping your local community. Visit our website to find out more:
